

JUNE 2018

DCTA's Positive Train Control (PTC) Progress Report

We have released an external report of our progress on positive train control (PTC) implementation. PTC was designed to prevent collisions and other incidents by automatically detecting and controlling the movement of trains.

DCTA is the first public transit agency in Texas to begin PTC testing. We are diligently working with the FRA to implement PTC within the federally-mandated requirements, and are currently listed by [FRA as one of the top third of public transit agencies](#) for PTC implementation progress.

During PTC testing, there will be temporary A-train service modifications to maintain our progress on PTC implementation. A-train service modifications will occur on Friday evenings and Saturday mornings and may continue through September 2018.

Participate in our A-train Birthday Contest

Did you know that our A-train turns seven this year? To celebrate our A-train's birthday, we're hosting an online scavenger hunt contest on Monday, June 18, and will giveaway awesome prizes to our riders!

HOW TO ENTER: You'll have a chance to answer three questions about our A-train that will be hosted on our

Facebook page on Monday, June 18. Everyone who answers the questions correctly will be entered in a random drawing to win a \$25 Amazon gift card and a 10 pack of regional day passes (three total prize packages).

Fingers crossed - you could be one of the lucky winners so don't forget to participate in our contest!
