UNT
UNIVERSITY OF NORTH TEXAS

Denton County Transportation Authority (DCTA) uses a route numbering system to help passengers understand the University of North Texas (UNT) Campus Shuttle service.

Each sequence has an abbreviated route name with a three-digit code to identify the group, route and schedule. The route acronym is visible to help riders quickly identify their desired route (for example, CE = Colorado Express).

In the following example, the shuttle's route is Colorado Express, and the schedule is Normal Weekday Service. (All UNT campus shuttles are assigned the same group number.)
