#### DCTA Budget Contingency Plan Fiscal Year 2024

The fiscal year budget includes revenue streams based on historical trends and projections of future activity. The largest revenue stream is sales tax. A contingency plan is recommended should the budgeted increase in sales tax not materialize or, if there is a need for service enhancements not planned in the fiscal year budget and it is determined that sales tax revenue has increased sufficiently to support sustainable service.

#### Section I: Sales Tax Revenue Shortfall

The following precautionary actions will be initiated immediately if a sales tax revenue shortfall is anticipated: Initial Precautionary Action

- Freeze all new hire positions and vacant positions except with necessity review by the Management Team
- Identify any non-traditional revenue sources.
- Re-justify all planned capital outlay over \$10,000 to the Management Team prior to expenditures.
- Re-justify all vehicle replacement/purchase schedules to the Management Team.
- Re-justify all travel related expenditures to the Management Team.
- Re-justify expenditures related to the service and materials & supplies category including, but not limited to:
  - Technology
  - Professional Services
  - Consulting Fees

Initiate the following expenditure reductions and measures if a cumulative unanticipated shortfall in sales tax revenue is equal to:

#### 2% Reduction (\$800,000)

- Realized savings will not be transferred between categories.
- Prohibit unbudgeted expenditures including supplies and maintenance accounts.
- The Management Team will be required to review, monitor and control planned expenditures greater than \$5,000.
- Supplemental appropriations will not be made from budgeted savings or unappropriated fund balance.
- All carry forward requests will be carefully reviewed and approved by Finance.
- Any overtime must be pre-approved by department heads.
- Determination made and plan developed regarding utilization of sales tax stabilization fund. Utilization of sales tax stabilization funds will require Board Approval prior to implementation.

#### 3% Reduction (\$1,200,000)

- Freeze all travel and training requests except with necessity review by the Management Team.
- Reduce expenditures in operations and maintenance accounts in each functional area. Amount of reduction to be determined by Management Team.
- Freeze capital outlay except with necessity review by the Management Team.
- Indefinitely freeze all vacant positions except with necessity review by the Management Team.

4% Reduction (\$1,600,000)

- Will require Board policy decisions regarding service delivery and fund balance reserves.
- Re-evaluate any budgeted transfer to Capital Projects which is not a grant match requirement.
- The Management Team will review service level reductions, passenger fare increases, elimination of specific programs, and reduction in work force. This would require implementation of the Service Reduction Policy.
- Evaluate the 90-day Operating Fund Balance Reserve Policy and consider options for fund balance utilization or utilization of other reserve funds. Board action will be required for utilization of reserve funds.

#### Section II: Sales Tax Revenue Sustainable Increase

The following steps will be followed when it is determined that additional mid-year service level enhancements are necessary (above those already programmed in the annual budget) and sales tax revenue exceeds budget and prior year's actual for at least 4 consecutive months and a determination is made that sales tax revenue increase is sufficient to support sustainable service levels.

For planning purposes, recommended service level increases will be less than or equal to the available sales tax stabilization fund.

Increases in sales tax revenue may be utilized to fund:

- Direct service enhancements
- System support
- Capital Infrastructure and maintenance reserve

Recommended service levels enhancements will be evaluated and prioritized based on:

- System performance and
- Board adopted service standards and service plan

Service Level considerations are not limited to additional transit service hours but may include other agency or transit system support requirements.

Service Level enhancement decisions will follow annual Decision Cycle framework.

Prior to implementation and adoption by Board, additional service level enhancements will be incorporated into long-range financial plan to identify impact of current enhancement in future years.

Implementation of Service Level Enhancements will require Board action and revision of annual budget.

#### Section III: Federal Grant Funding Reduction

The following precautionary actions will be initiated immediately if a federal grant reduction is anticipated:

Capital Expenditures:

- Identify and evaluate other available funding sources
- Evaluate scaling back the scope of the project to the allocated funds, if feasible
- Freeze project pending review and discussion with Board of Directors

#### Operating Funds:

• Follow the Sales Tax Revenue Shortfall Procedure

### Market Recap

Financial markets spent much of May focused on the debt ceiling issue, but a resolution in early June allowed attentions to shift back to economic data and the Fed. Although several of the leading economic indicators signaled weakness, the preponderance of concurrent indicators continued to exhibit surprising strength. The ISM manufacturing index logged a seventh straight month below 50 in May, indicating contraction in the manufacturing sector. The ISM services index unexpectedly fell from 51.9 to 50.3, the second lowest level in three years and just a fraction above 50.

The deteriorating outlook by U.S. purchasing managers was countered by another strong employment report as non-farm payrolls topped the median forecast for the 14th straight month with a gain of +339k in May, well above the +195k median forecast. Upward revisions added an additional +93k jobs to the March and April counts. Nonfarm payroll growth is now averaging +331k per month in 2023, down from +399k last year. The unemployment rate did climb from a five-decade low of 3.4% to 3.7%, but with payroll growth above 300k per month and the unemployment rate below 4%, the labor market clearly remains too tight.

The May inflation data was a mixed bag. Headline CPI rose just +0.1% and the year-over-year headline was a bright spot, dropping from +4.9% to +4.0%, down sharply from last year's +9.1% peak. Core CPI, which excludes food and energy, was stubbornly high, increasing by +0.4% in May, the sixth straight month at or above +0.4%. On a year-over-year basis, the core was up +5.3%. Although down from +5.5% in April, it was the 18th consecutive month above +5.0%, and more than  $2\frac{1}{2}$  times the Fed's 2% target.

Financial markets spent the first two weeks of June gravitating toward the idea that the FOMC would not raise the fed funds target for an eleventh straight time at the mid-June meeting. Prodded along by hints from Fed speakers, a few tentative signs of retreating inflationary pressures, and knowledge that the 500 basis points of rate increases implemented so far were still working through the system, markets concluded the FOMC would pause. Fed officials obliged, voting unanimously to leave the fed funds target

unchanged in a range of 5-5.25%. However, the new summary of economic projections, the so-called dot plot, conveyed a much more hawkish note than markets had anticipated. The forecast called for another 50 basis points of rate hikes, with a median estimate of 5.625% by yearend, up from 5.125% at the March meeting. In addition, the median estimate for the end of 2024 rose by 25 basis points to 4.625%. This hawkish forecast likely reflected a desire to keep the markets from reading too much into the pause and thereby easing financial conditions prematurely.

The committee's message was reinforced by Chair Powell during his remarks at the post meeting press conference. Powell noted that core inflation readings remain well above the Fed's target and that the process of getting inflation back to the 2% target "has a long way to go." Powell acknowledged they have "not seen a lot of progress" on core inflation and that "we want to see it moving down decisively." Powell also said, "Nearly all committee participants expected it will be appropriate to raise interest rates somewhat further by the end of the year."

The frustratingly resilient economic performance and hawkish Fed forced bond yields higher through the month of June. Prior expectations for rate cuts later this year have all but vanished as the recession many predicted remains elusive. Fed funds futures now indicate a yearend overnight rate of 5.38%, up from 4.91% at the end of May. The yield on the two-year Treasury note rose almost 50 basis points during the month, closing at a yield of 4.90%.

It is not possible to directly invest in an index. Financial forecasts, rates of return, risk, inflation, and other assumptions may be used as the basis for illustrations. They should not be considered a guarantee of future performance or a guarantee of achieving overall financial objectives. Past performance is not a guarantee or a predictor of future results of either the indices or any particular investment. S&P rates the creditworthiness of individual bonds from: AAA highest to D lowest.

Investing in fixed income securities involves interest rate risk, credit risk, and inflation risk. Interest rate risk is the possibility that bond prices will decrease because of an interest rate increase. When interest rates rise, bond prices and the values of fixed income securities fall. When interest rates fall, bond prices and the values of fixed income securities rise. Credit risk is the risk that a company will not be able to pay its debts, including the interest on its bonds. Inflation risk is the possibility that the interest paid on an investment in bonds will be lower than the inflation rate, decreasing purchasing power.

Cash alternatives typically include money market securities and U.S. treasury bills. Investing in such cash alternatives involves inflation risk. In addition, investments in money market securities may involve credit risk and a risk of principal loss. Because money market securities are neither insured nor guaranteed by the Federal Deposit Insurance Corporation or any other government agency, there is no guarantee the value of your investment will be maintained at \$1.00 per share, and your shares, when sold, may be worth more or less than what you originally paid for them. U.S. Treasury bills are subject to market risk if sold prior to maturity. Market risk is the possibility that the value, when sold, might be less than the purchase price.

Investing in stock securities involves volatility risk, market risk, business risk, and industry risk. The prices of most stocks fluctuate. Volatility risk is the chance that the value of a stock will fall. Market risk is the chance that the prices of all stocks will fall due to conditions in the economic environment. Business risk is the chance that a specific company's stock will fall because of issues affecting it. Industry risk is the chance that a set of factors particular to an industry group will adversely affect stock prices within the industry.

SUBJECT: Provide an Update on the A-train Enhancement Study

#### Recommendation

This is a discussion item only. No Board Action is required.

#### Background

A-train ridership in FY2019 was approximately 393,000. While ridership rebounded by 55% in FY2022 to approximately 175,000, that figure is only 45% of the pre-pandemic level. In FY23 year-to-date, A-train ridership is up 29% to 182,720. The Board of Directors has expressed interest in expanding A-train service to Downtown Carrollton and potentially increasing train frequency to facilitate further ridership growth. The Board of Directors approved a Task Order with Lockwood, Andrews, and Newnam (LAN) in April 2022 to conduct train simulations to determine the program of projects that would be required to accomplish these objectives. The results of that study were briefed in February 2023.

At that time, the Board of Directors directed staff to conduct an iteration of the study that illustrates the effect of a station at Corinth on A-train service with a south terminus in Downtown Carrollton.

The purpose of this briefing item is to review the outcome of that work, gain Board feedback, and discuss next steps to be undertaken in the program.

SUBJECT: Discuss Fiscal Year (FY) 2024 GoZone Contract Renewal and Fiscal Year (FY) 2023 Performance

#### Recommendation

This is a discussion item only. No Board action is required.

#### **Background**

GoZone, DCTA's on-demand rideshare service operated by River North Transit, LLC (Via), will have completed its second full year of operation at the end of Fiscal Year 2023. DCTA's agreement with Via consists of a two-year base contract term expiring on September 30, 2023, and includes provisions for two one-year renewal options. Reflecting a commitment to safe and efficient public transportation, this briefing item will include an in-depth review of the following items:

- FY23 GoZone service performance as compared to Key Performance Indicators established by Service Level Agreements with Via
- Year-Over-Year analysis of GoZone's first two years of operation, including overall and zonebased ridership and service performance
- A detailed look at GoZone safety performance and enhancements
- Enhancements that improve the GoZone customer experience
- Year 3 contract renewal information to continue operating GoZone service beyond FY23

#### **Identified Need**

Staff intends to seek approval by the Board of Directors to execute a contract renewal with Via to continue operating GoZone services at the September 2023 Board of Directors meeting.

## **Financial Impact**

Funding for FY24 GoZone operating costs are included in the proposed DCTA FY2024 operating budget. The Not-To-Exceed (NTE) value of the Year 3 contract is estimated to be \$10.458M and includes 234,895 GoZone service hours and rider support.

SUBJECT: Update on Intermediate Service Plan and Denton GoZone Data Within Connect Network

#### Recommendation

This item is for information only. No Board action is required.

#### **Background**

The purpose of the Intermediate Service Plan is to generate data-driven alternatives which to balance GoZone coverage and fixed-route service to increase ridership and improve efficiency, service, and cost outcomes. During a May 25, 2023 briefing, staff presented three Connect network service alternatives to the Board for discussion.

**Option 1:** Modify Connect schedules to have level headways across each route's full span of current service and increase frequencies on Connect 3.

**Option 2:** Increase frequencies on Connect 3 and decrease to 30-minute frequencies on all routes during evening hours.

**Option 3:** Increase morning and afternoon frequencies on Connect 3 and decrease to 30-minute frequencies on all routes during evening hours.

It was the consensus of the Board to have staff develop alternatives around increasing frequency on Route 3 within Option 2 and Option 3. The Board also requested staff to gather ridership data over the summer before bringing the item back to the Board for consideration. Therefore, DCTA Planning and Development staff continued to review the level of GoZone origins, destinations, and origin-destination pairs within the quarter-mile bus stop capture areas for Connect routes 3, 6, and 7 and found no significant changes associated with the UNT summer break as shown in the following table.

Month	Denton-to- Denton GoZone Passenger Trips	GoZone Passenger Trip Origins in Routes 3,6,7 quarter-mile service area	Percent	GoZone Passenger Trip Destinations in Routes 3,6,7 quarter- mile service area	Percent	GoZone trips with both ends in Routes 3,6,7 quarter-mile service area (I-I Trips)	Percent

SUBJECT: Update on Fare Policy Development

#### Recommendation

This item is for information only. No Board action is required.

#### Introduction

DCTA's Financial Management Policies state that "DCTA shall develop and maintain fair and equitable fares for all public transportation services which it operates." Currently, DCTA lacks a distinct fare policy.

## Framework for Establishing DCTA's Future Fare Policy

Having the framework of a future fare policy with vision-based ridership and revenue goals in place prior to updating DCTA's Long-Range Service Plan (LRSP) affords the agency with a head start towards advancing its upcoming LRSP. This study will explore state of the practice approaches to fare collection, enforcement, and administration. The study will also look at opportunities to increase levels of regional integration along with an eye towards future proofing subsequent capital investments in fare collection technology. Finally, the study will establish core goals and objectives of a what the agency's future fare policy should establish and guide development of the fare collection and revenue elements of DCTA's Long-Range Service and Financial Plans. The scope of work is structured around the following principal tasks:

- Task 1: Document fare policy goals and expectations,
- Task 2: Identification of best fare policy practices and precedents,
- Task 3: Identification of existing conditions,
- Task 4: Regional technology/fare payment policy review, and
- Task 5: Develop alternative policies, screen, and select alternatives for future analysis.

No prior Board actions. However, Informational Report: *Denton County Transportation Authority Fare Policy* and Informational Report: *DCTA Fare Policy Scope Development* were included in the April 27, 2023 and July 27, 2023 Board packages as background.

SUBJECT: Update on Proposed January 2024 Strategic Planning Session

#### Recommendation

This item is for information only. No Board action is required.

## **Background**

Denton County Transportation Authority lacks a current Long-Range Service Plan. A Long-Range Service Plan is an important tool by which the DCTA Board of Directors and staff can work together to formulate a long-term vision for the future of the agency.

In addition, the Board of Directors has identified several significant, strategic objectives the agency could pursue over the course of the next 5-10 years, primarily through the proposed Long-Range Financial Plan slated for adoption in the August 2023 Board of Directors meeting.

A strategic planning session provides the Board of Directors and DCTA Staff Leadership to spend dedicated time discussing and articulating objectives of medium- and long-term strategic priorities that will inform the agency's approach to the Long-Range Service Plan and many other important initiatives.

The DCTA Board Secretary will be in touch with members of the Board of Directors to identify possible dates of a January Strategic Planning Session prior to confirming the event.

The Board of Directors last met to discuss Strategic Planning Initiatives in July 2022.
